Tailor Your *Package*

Every add-on below is available for $250.
Here's exactly what each one includes.

Film Photography

A selection of your wedding day shot on real film, developed, scanned, and delivered alongside your digital gallery. We shoot one roll of 120 film, about 15 shots, and one roll of 35mm, about 24 shots, focused on the quiet in-between moments and portraits. Film takes a little longer since it's delivered once the rolls are back from the lab. These come straight from the film, no retouching.

Since film can be unpredictable, if your photos don't turn out, you'll get a full refund on this add-on.

Highlight Reel

Short, shareable, and made to be felt in under a minute. This reel is cut specifically for social media, Instagram, TikTok, wherever you want to post it. Delivered as an MP4, ready the moment you get it.

Raw Footage of Ceremony

Your full ceremony, start to finish, exactly as it happened. We do the basic editing so it's smooth to watch, but we keep the color true to life. No color grading, no music, no cuts, just your day the way you saw it in the room.

If something outside our control means the moment isn't captured, you'll receive a full refund for this add-on.

Raw Footage of First Dance

Your first dance, captured in full. Just the two of you, the song, and the room watching. Basic editing keeps it clean, and the color stays untouched so it looks exactly how it felt that night.

If something outside our control means the moment isn't captured, you'll receive a full refund for this add-on.

Raw Footage of Speeches

Every speech, start to finish, captured in full, back to back, nothing trimmed. We handle the basic editing to keep it clean and easy to watch, while keeping the color natural and true to the room.

If something outside our control means the moment isn't captured, you'll receive a full refund for this add-on.

All add-ons are confirmed at time of booking and reflected in your contract.
